

Applications Engineering Request For Information (Proportional Valves)
Description of machine function?
Description of problem/application? (Include all detail – attach separate sheet as necessary)
Media type?
Proportional valve function required, pressure or flow?
Type of Control signal?
Output signal required?
Operating pressure, flow? (i.e. maximum & minimum)
Special electrical requirements?
Response time requirements?
Special requirements or certifications? (i.e. UL, CSA, CCC, CE, medical or food service, etc.)
Operating environment including temperature, contaminants, etc?
Condition or quality of the compressed air supply or other media characteristics? (i.e. temperature, contaminants, viscosity, etc.)
Description of the proportional valve circuit or a schematic:
